

Lesson Plan for "Care of Dishes"

Overview

This lesson involves five interactive stations focused on different aspects of dish care. Over five days, students will practice washing dishes, sorting silverware, stacking dishes, and cleaning a sink. Each day includes a brief presentation followed by station rotations.

Lesson Objective

By the end of the lesson, students will be able to:

- wash plates and cups.
- sort silverware into categories.
- stack dishes properly.
- clean and dry a stainless-steel sink.

Materials Needed

- **Station 1:** plastic plates and cups, dish soap, sponges, dish racks
- **Station 2:** mixed silverware, sorting trays
- **Station 3:** clean dishes (plates, bowls, cups), stacking area
- **Station 4:** cleaning solution, sponges or cloths, towels

Station Descriptions

Station 1: Wash Plates and Cups

- **Activity:** Wash and rinse plastic plates and cups, then dry them on a rack.
- **Role of Teacher:** Demonstrate washing technique and assist as needed.

Station 2: Sort Silverware

- **Activity:** Sort silverware into forks, knives, and spoons.
- **Role of Teacher:** Explain sorting categories and assist with sorting.

Station 3: Stack Dishes

- **Activity:** Stack clean dry dishes.
- **Role of Teacher:** Show stacking techniques and monitor the process.

Station 4: Wash and Dry Stainless-Steel Sink

- **Activity:** Clean and dry the sink.
- **Role of Teacher:** Demonstrate cleaning techniques and supervise
